This is "Regina" Week at This Store!

For the purpose of convincing the public of the importance of owning a Regina Pneumatic Vacuum Cleaner in your home, we ask everyone to visit our store and learn what this wonderful Vacuum Cleaner will do. We send them out on one-day trial at this time. If you are pleased with it, we have an interesting proposition to offer for this week only.

Our easy term payment plan and cash offer will enable every home to own a "Regina"

Below we give a brief description of this Sweeper. A talk with us at this time will more fully convince you of the way to keep a clean home, without labor.

The Regina Pneumatic Sweeper Model "F" is as easy to handle as an ordinary carpet sweeper, but vastly more modern and efficient. It cleans by suction, gets not only the surface dirt, but also the fine dust imbedded in the fabric and collects this dust in a bag instead of scattering it.

In construction it is both simple and substantial. It is used in exactly the same manner as a carpet sweeper. The suction is produced by duplex bellows which are operated rapidly by the turning of the rubber-tired wheels as the sweeper is moved across the floor. These bellows respond instantly to every movement of the sweeper in either direction, and produce a strong suction. Model "F" removes the dust without the slightest wear on the carpet, and is always ready for instant use. All you have to do is push it around.

It is 17 inches long, 8 inches wide and 6½ inches high, not including the handle. It weighs only 12½ pounds and is fully guaranteed. Best of all, it costs so little that it is within the means of every housekeeper.

Extra attachments for cleaning curtains, draperies, upholstered furniture, mattresses, and for many other purposes, can be furnished for Regina Sweeper Model "F" when desired. A circular fully describing these extra attachments will be sent on request.

Manufactured and licensed under the Basic (Kenney) Vacuum Cleaner.

Yesterday forenoon, Summer street was the scene of commotion while the delivery wagon of the Nichols provision store of North Barre speeded through the thoroughfare. The delivery wagon was in charge of Frank Nichols and the horse became frightened at the lower end of the street while its driver was absent. The horse cleverly dodged its way among the passing vehicles through the entire length of the street, ending its course at the Paquet blacksmith shop, where the steed turned its course and unceremoniously entered. The proprietors of the shop secured control of the animal soon after its advent in their establishment. The wagon and harness were slightly damaged, and a wagon lying in the blacksmith yard also received minor damages.
